WORK EXPERIENCE

ThinkStratum IT Pvt. Ltd., Pune

Software Engineer - Intern

Jul 2025 – jan 2026

Pune, Maharashtra

- Developed backend APIs for a travel booking system using Java (Spring Boot) and MySQL.
- Implemented RESTful endpoints for booking creation, user data retrieval, and payment processing.
- Collaborated in an agile team to optimize backend performance and maintain clean, reusable code.

aPLS Web Development, Sambhajinagar

Software Developer Trainee

Jan 2026 – Present

Sambhajinagar, Maharashtra

- Working as a Software Developer Trainee on the aPLS AI project, gaining understanding of project architecture and workflows.
- Assisting in backend development and API-related tasks using PHP and Laravel under guidance.
- Learning and contributing to debugging, feature enhancements, and codebase improvements as assigned.

TRAINING & CERTIFICATIONS

VibrantMinds Technologies, Pune

Full Stack Java Development Course

2024–2025

Pune, Maharashtra

- * Learned front-end technologies including HTML, CSS, and JavaScript.
- * Gained hands-on experience with backend technologies such as Java, JDBC, Hibernate, and Spring Boot.
- * Developed strong understanding of MySQL and basic database management concepts.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: HTML, CSS, Bootstrap, jQuery

Backend: JDBC API, Hibernate, Spring, Spring Boot, Spring MVC, JSP, Servlet

Database: MySQL, SQL

Developer Tools: VS Code, Eclipse IDE, IntelliJ IDEA, MySQL Workbench, Postman, Swagger, Git, GitHub, pgAdmin

Additional Skills: Object-Oriented Programming (OOP), Data Structures and Algorithms, API Development, API Testing, API Integration, Hexagonal Architecture

PROJECTS

Employee Management System (Spring MVC Web Application)

Java, Spring MVC, JSP, JDBC, MySQL

- Developed a Spring MVC-based Employee Management System with complete CRUD functionality.
- Implemented MVC architecture using Controller, Service, and DAO layers for clean separation of concerns.
- Designed JSP views with JSTL for adding, editing, and listing employee records.
- Integrated MySQL database using JDBC for efficient and persistent data management.
- Deployed the application on Apache Tomcat with Maven-based build and dependency management.

Online Complaint Management System

Java, Spring Boot, REST APIs , MySQL, Postman

- Developed a Spring Boot-based RESTful backend for registering, tracking, and managing user complaints.
- Implemented clean layered architecture using Controller, Service, and Repository layers.
- Built CRUD APIs for users and complaints using Spring Data JPA and Hibernate.
- Managed complaint lifecycle using Enum-based status handling (OPEN, IN_PROGRESS, RESOLVED, CLOSED).
- Tested and validated REST APIs using Postman with structured JSON request and response handling.

EDUCATION

R.C. Patel Institute of Technology, Shirpur, Maharashtra

B.Tech in Electronics and Telecommunications

2020 – 2024

CGPA: 7.52/10
